Subject: PA Response

Dave – Avista recently received the Washington Public Utilities Commission response to the recent Public Awareness (PA) audit that was completed in conjunction with the Oregon and Idaho Commissions. Your letter indicated a written response is due May 11, 2012. I am writing to request an extension in order to provide Avista additional time to respond and provided a coordinated response in all three states.

Dave – Per our discussion on Wednesday I am requesting that Avista's response to the Washington Commission be no later than June 20, 2012, this will align Avista's required response date in all three states.

Commission	Original Response Date	Revised Date	Notes
Washington	5/11/12	6/20/12	Per verbal from Dave L
Oregon	6/20/12	6/20/12	No Change
Idaho	5/18/12	6/20/12	Per Joe @ IPUC

I appreciate your consideration of this request. Avista is committed to resolving this issue in a timely manner. The additional time will allow for an enhanced response.

Regards,

David Howell
Gas Compliance and Measurement Manager
