Dear Mr. Martuscelli:

RE: 2013 Natural Gas Standard Inspection –Yakima/Sunnyside District - Follow Up

The Commission's February 6, 2014 closure letter for this district noted that a time would be scheduled to review Cascade Natural Gas' internal quality assurance/quality control (QA/QC) audits as noted in Action Item No. 3 of the Settlement Agreement (UTC Docket No. 110443). In part, these audits were to specifically address QA/QC oversight of district performance in compliance with CNG's procedures for leak investigations. This review was completed in your office in Kennewick on May 28, 2014. As a result, all compliance issues associated with this inspection have been satisfactorily addressed by CNG.

Staff would like to thank CNG's personnel for their cooperation and assistance during this follow up inspection.

If you have any questions or if we may be of any assistance, please contact Dennis Ritter at (360) 664-1159.

Sincerely,

David D. Lykken
