**RE: 2019 Crude/Butane Records Review – Field Verification Liquid Inspection – BP Pipelines North America – BP Cherry Point Refinery (Insp. No. 7842)**

Dear Mr. Maret:

Staff from the Washington Utilities and Transportation Commission (staff) conducted a Records Review-Field Verification Liquid inspection of BP Pipelines North America, (BP North America), BP Cherry Point Refinery on February 13-14, and March 26-27, 2019. The inspection included a records review and field verification inspection of pipeline facilities.

No apparent violations were noted as a result of the inspection, therefore this inspection will be closed as of the date of this letter.

Staff thanks BP North America's personnel for their professionalism and cooperation during this inspection.

If you have any questions or if we may be of any assistance, please contact Anthony Dorrough at (360) 664-1318.

Sincerely,

A handwritten signature in blue ink, appearing to read "Sean C. Mayo".

Sean C. Mayo  
Pipeline Safety Director
