**RE: 2019 Hazardous Liquid Operator Qualification Inspection – BP Pipelines North America – BP Cherry Point Refinery (Insp. No. 7843)**

Dear Mr. Maret:

Staff from the Washington Utilities and Transportation Commission (staff) conducted an Operator Qualification (OQ) inspection of BP Pipelines North America (BP), BP Cherry Point Refinery from January 23 to January 24, 2019. The inspection included an OQ process and records review.

No apparent violations were noted as a result of the inspection; therefore, this inspection will be closed as of the date of this letter.

Staff thanks BP's personnel for their professionalism and cooperation during this inspection.

If you have any questions or if we may be of any assistance, please contact Anthony Dorrough at (360) 664-1318.

Sincerely,

Sean C. Mayo  
Pipeline Safety Director
