RE: 2022 Natural Gas Section 114 Compliance Review – Avista – (Insp. #8509)

Dear Ms. Rosentrater:

Pursuant to 49 U.S.C. 60108(a)(3), as amended by section 114(a) of the PIPES Act of 2020 (Section 114), PHMSA and state authorities with a certification under 49 U.S.C. 60105 will inspect operators' revised O&M plans in calendar year 2022.

On 5/4/2022, staff from the Washington Utilities and Transportation Commission concluded a review of Avista's operation and maintenance plan compliance with Section 114 requirements. Staff based its review on your plan as inspected by Oregon PUC. No apparent violations were discovered during this inspection. This inspection will be closed as of the date of this letter.

Staff thanks Avista's personnel for their professionalism and cooperation during this inspection.

If you have any questions or if we may be of any assistance, please contact Anthony Dorrrough at (360) 481-4035.

Sincerely,

Sean Mayo
Pipeline Safety Director
